

# Look into the future

Every now and then you come across a concept that could determine the future of your business, **itsmydesktop** is such a concept.

Here's what some of our users say...

"itsmydesktop provides us with a flexibility that we didn't have before and it's provided us with the security that we definitely didn't have before."

Stephen, Highland Home Carers

The best benefit is definitely the remote access."

Yvonne, Drever & Heddle

"This was the smoothest migration ever."

Marco, Carisma RCT

# What makes a great business?

## One that's connected to **itsmydesktop**

### It's Cost Effective

Every business, whether just starting out or well established, needs to keep their computer equipment up-to-date. Sound like an expensive prospect? itsmydesktop is the solution, with little or no capital expenditure required to get connected.

### It's Secure

Security, compliance, business continuity or disaster recovery a worry? Automatic backups five times daily, 128 bit encryption, protection from data loss in the event of unexpected on premise events. Your data is held securely at our own data facility, you know it's safe, at all times and you know where it is.

### It's Flexible

Connect to your own Windows desktop and access your email, data files, Microsoft documents or bespoke applications from anywhere, at any time, securely over any suitable Internet connection. Work from the office, from home or even on the road, accessing your online desktop on your mobile phone. Sound like the flexibility you've always wanted? Get connected to itsmydesktop and it's yours.

### It's Green

Every conscientious business owner wants to play their part in reducing carbon emissions. By switching to itsmydesktop you can do so by reducing the amount of energy your business uses each and every day.

### It's Easy

Any problems, just contact our Helpdesk team. We're here to make sure you get the very most out of the itsmydesktop Cloud service and what's more, we guarantee our promises with a one link Service Level Agreement. How many other Cloud computing providers can say that?
